

DDB/1061-M

DAB 6 CELLS FILTER

FEATURES

- DAB 6 CELLS PASS-BAND FILTER
- CONNECTORS IN/OUT 7/16
- VARIABLE BANDWIDTH
- EXTERNAL BODY IN ALUMINUM (*)
- INTERNAL LINES COPPER
- EXTREMELY COMPACT AND SELECTIVE

TECHNICAL DATA

Frequency Range	174 - 240Mhz
In and Out Impedance	50ohm
Return Loss	≤ 25dB
Attenuation	-0.9 to -1.4dB
Power *	300W
Working Temperature	-10 to 45°C
External Dimensions	343x196x490cm
Weight	19Kg

* at max eight above sea level of 1500mt

* To adapt our products line to the highest quality standards and at the same time in order to guarantee respect for the environment and human health, we have decided to modify the surface treatments of the aluminum components, eliminating hexavalent chromium (Alodine 1200) and passing to the new Passivation and protection process called **SurTec 650**. This treatment guarantees excellent protection of the aluminum even without using Chromium VI. This means that from now on all our aluminum products will no longer have the typical yellow-gold color as the new treatment is practically transparent and colorless.
